

Soft Corporate Offer

Our company offers enriched iron-bearing residues of iron and steel casting production, in accordance to "TU U 27.1-32866198-003:2009", Ukrainian origin, which can be used in agglomerate blasting manufacturing at steel work.

We reached high Iron concentration as well as low Silica Dioxide concentration by applying both the technological process of enrichment and retreatment of iron-bearing residues of the processing of both open-hearth furnace and blastfurnace.

Please refer to following quality specification

Parameters which are included in "TU U 27.1-32866198-003:2009"	
Fe content min(Fe), %	64,0
Fe average content(Fe), %	68-70
Carbon(C),%	1,5-4,0
Silicium Dioxide (SiO ₂), %	1,2
Size,mm	
Grade „A“	10-80
Grade „B“	0-10
Grade „C“	0-80
Additional parameters which are not included in "TU U 27.1-32866198-003:2009"	
Mn, %	0,8
P, %	0,02
S, %	0,03
Zn, %	0,022
Pb, %	0,004
H ₂ O, %	0,081

Terms of supply	CPT Ukrainian port FOB Ukrainian port
Available volume per month, (MT)	25 000,00
Package	In bulk (bulk in containers is available)
Specimens	Available via courier service
Terms of payment	100% irrevocable and confirmed LC at sight

Price Idea (Grades «A», «B», «C»)

CPT Ukrainian port	83,5 USD/mt.
FOB Ukrainian port	113,5 USD/mt.

Procedure

- Buyer issues LOI or ICPO.
- Seller issues Firm Corporate Offer (FCO).
- Buyer returns signed FCO and issues both draft of the contract and draft of the LC to agree with the seller's bank.
- Buyer and Seller signs contract.
- Buyer and Seller appoint the date and the place to sign hard copies of the contract or exchange it via courier service.
- The seller starts delivery as per the terms and conditions of the contract.
